LENGTH (L)	18¾	19¾	20	20½	21	21¾
SLEEVE (S)	32¾	33¾	35	36½	37¾	39¾

### HOW TO MEASURE

#### BUST

Wrap measuring tape under your arms and around the fullest part of your chest.

#### WAIST

Find the slimmest part of your waist (usually above your belly button) and measure around it with a tape measure.

Our garments are handcrafted with care, which may result in slight measurement variations: ±0.5 inches for smaller measurements and ±1 inch for larger measurements.

All designs were originally created using metric measurements (cm) and converted to inches. While we strive for accuracy in conversion, slight variations may occur.

Listed measurements represent the garment's dimensions when laid flat on a surface. These are not body measurements or size recommendations. Please compare these garment measurements with clothing that fits you well for the most accurate size selection.
